

SPIDER WEB

Background **1½ yard** For my sample, cut 24 - 8½" squares
If you want to use your background as a framing border, you'll need 10"
to cut five 2" strips. If you can get five 8½" squares from your fabric, you will
have enough, but if you can only get four squares per strip, add **¼ yard**.

Constant (this is optional) **5/8 yard** 12 - 1½" strips
In my sample, it is the red border around each spider web.
If you want to use this fabric as your framing border, add **¼ yard**.

Web Many scraps cut to varying widths -- 1½", 1¾", 2"
 Approximately 2 yards (2 5/8 if not using a Constant)
Bring strips to share—I will bring A LOT of strips to class! Feel free to use them!
The more variety you have, the better! Bring along that UGLY fabric because it
works in great!

Outside Border
This can be done from scraps, or think up something creative!

VERY IMPORTANT! Bring a large brown paper bag or any opaque bag that
 stands up by itself.

SEWING SUPPLIES Sewing machine
 Fabric for the project
 Neutral thread
 Rotary cutter & mat
 Ruler
 Marking Pencil
